

Lab Report: Glow in the Dark Slime

BEFORE THE EXPERIMENT:

1 State your hypothesis.

A hypothesis is a statement predicting what you think will happen as a result of the experiment.

During this experiment I think...

2 List the materials that you are using to conduct your experiment.

AFTER THE EXPERIMENT:

3 Draw a picture of what happened during your experiment.

4 Explain what happened.

5 In order for the slime to glow, it must be exposed to _____.

- a.** Heat **b.** Water **c.** Light

TAKE THE CURIOSITY CHALLENGE:

Test the effect of different types of light such as sunlight, indoor/fluorescent light, or blacklight, on the slime.

6 What do you think will happen?

7 What were your results?
